IN THE CRESCENT CITY

Presidential Party Reaches New Orleans En Route Westward.

ANOTHER OVATION.

Citizens Not Behind Memphis Bestowing Honors upon the President.
The Stop at Vicksburg and Jackson Was Short.

New Orleans, May 2.—The presidential party traveled across the cotton belt yesterday from Memphis to the gulf, making the first stop at Vicksburg, teeming with its memories of 80 years ago, thence to Jackson, the capital of Mississippi, and from there down into the land of the magnolia and the orange to the old romantic city near the mouth of the Mississippi with its traditions of the French and the Spanish rule.

The outpourings of people to see the presidential train along the route were larger than of the two previous days and the demonstrations at Vicksburg and Jackson were very striking. The visit to Vicksburg was in some respects the most interesting yet made. Here a triumphal arch of cotton bales with the magic word, "Expansion," pointed out to the president as he passed under it, the path of the new south.

Although it had not been intended to make any stops after leaving Jackson, the train was halted at several of the smaller towns where cotton mills are located to permit the president to see and speak to the operatives. At some of the stations the crowds actually impeded the progress of the train and the engineer was obliged to slow down to avoid danger of running over enthusiastic people.

As the sun was lowering the train crossed the bayous with their tangles of moss covered cypress and live oak and skirting Lake Ponchartrain steamed into New Orleans. This is the first time New Orleans has ever had a visit from the chief magistrate of the nation and it was a royal reception.

The air was full of the blare of bands the booming of cannon and the scream of whistles from the harbor craft as the train drew into the station. Here the president and his party were greeted by Governor Heard, Mayor Capdeville, Senators McEnery and Foster, the entire Louisiana delegation in congress, the city council and representatives of the various commercial exchanges.

The president and his cabinet passed out of the station between a line of smart looking militiamen on one side and a smarter looking line of young cadets from the Jesuit Military college here, on the other. The boys ranged in age from 8 to 14, but despite their youth they made a fine appearance in their gray uniforms as they presented arms to the presidential party. Outside the governor's staff, resplendent in gold lace and mounted on plunging chargers, awaited the presidential party.

The crowd around the station was so dense that it required the heroic efforts of the police to keep the path to the carriages clear. A big military parade consisting of the Louisiana cavalry troop, the Washington artillery and all the militia from this end of the state escorted the party along Camp and Canal streets to the new St. Charles hotel.

The city was liberally but not lavishly adorned with the national colors and the crowds in the streets were tremendous, never except in mardi gras times were they known to be so choked and jammed with surging humanity. The iron wrought galleries which embroiled the fronts of the buildings fairly groaned under their burdens of human freight.

Mrs. McKinley and the ladies of the party dined quietly at the hotel and later received the ladies of New Orleans. The president and his cabinet, with the other gentlemen of the party, were given a most elaborate banquet at the hotel in the evening. About 300 of the prominent men of New Orleans were present and the banquet was said to have exceeded in every respect anything of similar character attempted in this city.

The party were driven about the city this morning and in the afternoon took a sail along the river front. At 5 o'clock this evening the presidential special will again resume its journey westward.

Visits Colored University.

New Orleans, May 2.—President McKinley, accompanied by Governor Heard and Mayor Capdeville and escorted by a mounted detachment of police a Louisiana cavalry troop, left the St. Charles hotel at 9:30 o'clock this morning and proceeded to the Southern University, a colored institution, where he was enthusiastically received by faculty and students.

Diaz to President McKinley.

San Francisco, May 2.—Jaquin Barnada, ex-Minister of justice of the republic of Mexico and Senor Jose Dominguez Peone, a wealthy Mexican, will be in

this city when President McKinley arrives and are expected to be bearers of greeting from President Diaz to the chief executive of this country.

Robb's Will Probated.

Louisville, May 2.—The will of Chas. P. Robb of New Orleans has been probated here. It disposes of the estate valued at \$200,000. Bequests are made to various nieces and nephews and other relatives in Louisiana, Texas, Kentucky and Mississippi.

WAR IN PHILIPPINES.

General Bell Tells What Had to Be Done to Conquer the Natives.

New York, May 2.—Brigadier General Bell, who has just arrived in Washington, direct from the Philippines, where he was in command of four departments of southern Luzon, is quoted as saying:

"One-sixth of the natives of Luzon have either been killed or have died from dengue fever in the last two years.

"The loss of life by killing alone has been very great, but I think that not a man has been killed except where his death served the legitimate purpose of war. It has been necessary to adopt what in other countries would probably be thought harsh measures, for the Filipino is tricky and crafty and has to be fought in his own way.

"One of my sentinels was beheaded within 150 yards of my headquarters. His executioner was a boloman, who came into camp disguised as a fruit vendor. He had his bolo hid in his basket, and at the opportune moment drew it and cut off the sentinel's head.

"The Filipinos in my district were in the habit of stopping the wagons of the natives and imposing a tax of one American dollar on each load of hemp. Frequent complaints were made to me, and one day I sent Captain Hand of the Forty-fifth infantry to stop the practice. He and six men concealed themselves in a covered wagon. When they were held up they opened fire on the insurgents, and five of them were killed. After that there was no more levying of taxes.

"The insurgents also caused us much trouble by tempering with our telegraph, and for a while we were obliged to treat every one outside of our lines as an enemy. If a man was caught within 150 yards of a telegraph pole he was shot. On one occasion six Filipinos were found dead holding to a wire which they had wrapped about a tree. No one knew who shot them, but their fate was sufficient to keep any of their comrades from tampering with the lines again."

Gen. Bell is at Washington for the army to examine the candidates for second lieutenants. He says that he supposes the examinations will be framed to suit men who have been in the field for sometime and not those fresh from college.

CRISIS THREATENED.

The Export Coal Tax Causing Miners to Adopt Drastic Measures.

London, May 2.—Chancellor Hicks-Beach's proposed export duty on coal threatens to bring upon Great Britain an unparalleled industrial crisis. The coal miners delegates have recommended the universal closing of coal pits as a protest against the export tax. The miners' leaders say they can hold out six weeks, by which time every industry in the country would be paralyzed.

In parliament the threatened strike is regarded as unwise and impracticable now, whereas if the miners should wait until the coal owners attempt to recoup themselves for the tax out of wages the sympathy of the whole country would be with them in the strike.

Chancellor Hicks-Beach will not adhere absolutely to the tax but it is admitted that if the strike should be ordered and maintained for a month the budget proposed must be abandoned and the whole government fail.

Delay on Canal Bill.

Berlin, May 2.—Chancellor Count Von Buelow reported personally to Emperor William Wednesday and complained of international delaying of canal bill by a majority in the diet. The government thereupon gave up further negotiations regarding the bill for the time being. The resignation of Dr. Von Michael, the finance minister, is now considered likely to be presented in the immediate future. Emperor William and the Prussian cabinet adhere to their intention to rebuild the canal.

Straw Hat Combine.

New York, May 2.—A scheme is on foot to combine the straw hat manufacturing establishments of New York and Baltimore. The new concern is to be known as the American Straw Hat Manufacturing company and it is said the plans when perfected it will be incorporated under the laws of New Jersey with a capital stock of \$12,000,000. Eighteen firms, according to the plans, will be included, 15 of them in this city and 3 in Baltimore.

count of the increase in American exports it has been decided to open a regular line to Boston and increase the number of steamers on New York and New Orleans routes.

Turkish Mission Departs.

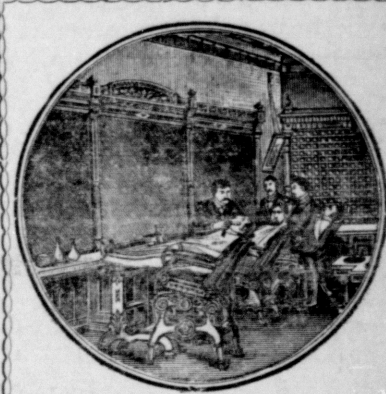

Constantinople, May 2.—The Turkish mission under Pasha, composed of military officers and clergy, charged with the establishment of relations between Turks and Chinese Mussulmans have embarked. The delay in the departure of the mission was due to Russian opposition. The scheme is favored by Germany.

FRIDAY, MAY 3, 1901.

The remainder of the country is just beginning to realize how much it needs Texas.

Meanwhile the farmer goes quietly and industriously ahead raising the wherewithal to feed and clothe the world.

The oil excitement, which has perceptibly affected business throughout the state, shows some signs of abatement.

The wages of the mechanics in the M. K. & T. shops at Smithville have been raised 30 cents a day. That sounds good.

If the people would get the kind of a move on them along general lines that they have in this oil business, grand old Texas would fairly throb with development.

In the district court of Madison county Seth Duncan, the young man charged with the murder of E. A. Simonton and H. T. Slaughter, in Evans' saloon at Madisonville was convicted, and sentenced to the penitentiary for life.

UNDER NO POWER.

American Legation Guard at Peking Subject Only to American Orders.

Washington, May 2.—The legation guard at the American legation at Peking will not be subjected to the orders of any foreign general. The American legation guard will retain its independence if it is necessary to that end to remove it from Peking and from China. The latter course might become necessary in case of the powers formally declaring war upon China and exercising its right to cause the withdrawal of all neutral forces, but under existing conditions the guard will probably remain. Germany was one of the powers that subscribed heavily to the suggestion of the United States that no nation make private arrangements with China for the enlargement or acquisition of concessions so that the officials here are surprised to learn that the Germans have taken steps to acquire a concession at Canton. It is believed here that it was without doubt the insistence of the United States that China checkmated the Russian designs upon Manchuria for the time being.

PHILIPPINE NEWS.

The Commission Returning to Manila After Eight Weeks' Journey.

Batangas, Island of Luzon, May 2.—A score of insurrectionists fired into the town Wednesday night. No casualties reported. The few outlaws remaining in the province have been nearly pacified.

The commission has established a government at Sorsogon at the southern end of the island of Luzon and appointed Captain J. O. Livingston of New York treasurer. Conditions at Sorsogon are regarded as remarkable.

The commission touched at Marinduque Wednesday and fulfilled the pledge made that if the insurgents surrendered the municipalities would be organized and a separate provincial government established at Marinduque. The commission will go from here to Manila, after an 8 weeks' successful tour.

Taken to Butler.

Kansas City, May 2.—Dr. Gartrell, whom officers declare confessed to the killing of D. B. Donegan of Victor, Colo., a miner, and with his son were taken to Butler, Mo., Wednesday, where they will be held pending trial.

Talk of Lynching.

Butler, Mo., May 2.—There was some talk here Wednesday of lynching Dr. Gartrell and his son, but when Sheriff Smith and his deputies reached here with the prisoner the sheriff landed his prisoners safely in jail. Fears are entertained that an attempt to lynch the men will be made and the sheriff is taking extra precautions. There are many strangers in town.

No One Road Has Control.

New York, May 2.—From the information given out here it does not appear that any railroad company has secured the majority interest in the Mexican Central, but it is considered likely that the St. Louis and San Francisco will ultimately have a voice in the management of it. It seems to be the sentiment that later changes would be made in the board of directors chosen here Wednesday, whereby a place will be made for Nathaniel Thayer, now in Europe, and that other New York directors will be added.

Fair Estate to Be Divided.

San Francisco, May 2.—The supreme court has reversed a former decision and declared that the trust clause in the will of the late James G. Fair is invalid. In his will Mr. Fair left his estate valued at \$15,000,000 in trust, the proceeds to go to his heirs, but the principal to be kept out of their hands. As a result of the decision of the supreme court the estate will now be divided among Fair's children, Mrs. Herman Oelrichs, Mrs. W. K. Vanderbilt Jr., and Charles Fair.

Case Succeeds Searles.

New York, May 2.—Albert C. Case has been chosen to succeed John E. Searles, resigned as president of the American Cotton company and he has assumed the duties of the position. Mr. Case has been for years the credit manager of the Carnegie Steel company and one of its partners. He is also a trustee of the Metropolitan Trust company of this city and a director of the American Bridge company.

Bought a Texas Ranch.

Vinita, I. T., May 2.—J. N. Farwell of Chicago closed a \$500,000 deal with E. L. Hulse of Vinita, for cattle and grazing land in western Texas. The sale includes 15,000 acres of land in Ordham and Hartley counties, at \$2 an acre and 7000 white-faced Hereford cows at \$30 a head. Two hundred and fifty thousand dollars in cash was paid to bind the deal.

Cooks and Waiters Strike.

San Francisco, May 2.—Twenty-two hundred union cooks and waiters struck here because the Restaurant Keepers' association would not sign the union agreement for shorter hours and increased wages. The restaurants mostly affected were in the downtown district and on the water front. Several proprietors closed their places in order to help others keep open.

DECREASE FOR APRIL

By the Purchase of Bonds it Was Lowered Over Four Hundred Thousand Dollars—Cash in the National Treasury.

Washington, May 2.—The public debt statement issued by the treasury department shows that at the close of business April 30, 1901, the debt less cash in the treasury amounted to \$1,072,745,256, a decrease for the month of \$4,397,433. This amount, however, does not include \$770,842,989 in certificates and treasurer notes outstanding which are offset by an equal amount of cash held in the treasury for their redemption. The cash in the treasury is classified as follows:
